What better way is there to celebrate the Valley's APPLE HISTORY than by joining the Augusta County Historical Society for a fall afternoon full of festivities? Once, the rolling hills of Augusta County were dotted with apple trees. Long forgotten varieties like Rome, Winesap, Granny Smith, and Black Twig filled the pantries and root cellars of Valley farmhouses. Professor Apple, a.k.a. Tom Burford, will take us on a fruitful journey back in time to learn about our Apple History. Sharing the spotlight for the day will be famed folk musicians Robin & Linda Williams. In between Professor Apple and the Williamses, take time to indulge in the free taste testing of Barren Ridge wines and sip some fresh cider squeezed from an old-fashioned cider press.
